# About the Certificates

Google UX Design	<p>Over 7 courses, gain in-demand skills that will prepare you for an entry-level job.</p> <p>By the end of the certificate program, you will have a professional UX portfolio that includes three end-to-end projects, so that you're ready to apply for jobs. Upon completion, you can directly apply for jobs with Google and over 150 U.S. employers, including Deloitte, Target, Verizon, and of course, Google.</p>
Google IT Support	<p>This program prepares you for the CompTIA A+ exams, the industry standard certification for IT—you'll earn a dual credential when you complete both.</p> <p>This program is ACE® approved—when you complete, you can earn up to 15 college credits, the equivalent of 5 college courses at bachelor's degree level.</p>
Google Digital Marketing & E-Commerce	<p>Throughout this program, you will gain in-demand skills that prepare you for an entry-level job and learn how to use tools and platforms like Canva, Constant Contact, Google Ads, Google Analytics, Hootsuite, HubSpot, Mailchimp, Shopify, and Twitter. You will learn from subject-matter experts at Google and have a chance to build your own portfolio with projects like customer personas and social media calendars to show to potential employers.</p>
Google Project Management	<p>Project managers are natural problem-solvers. They set the plan and guide teammates, and manage changes, risks, and stakeholders.</p> <p>Gain in-demand skills that will prepare you for an entry-level job. Learn from Google employees whose foundations in project management served as launchpads for their own careers.</p>
Google Data Analytics	<p>Data analytics is the collection, transformation, and organization of data in order to draw conclusions, make predictions, and drive informed decision making.</p> <p>Over 8 courses, gain in-demand skills that prepare you for an entry-level job. You'll learn from Google employees whose foundations in data analytics served as launchpads for their own careers. At under 10 hours per week, you can complete the certificate in less than 6 months.</p>
Google Cybersecurity	<p>During the 8 courses in this certificate program, you'll learn from cybersecurity experts at Google and gain in-demand skills that prepare you for entry-level roles like cybersecurity analyst, security operations center (SOC) analyst, and more. At under 10 hours per week, you can complete the certificate in less than 6 months.</p>
Google IT Automation with Python	<p>This program designed to teach you how to program with Python and how to use Python to automate common system administration tasks. You'll also learn to use Git and GitHub, troubleshoot and debug complex problems, and apply automation at scale by using configuration management and the Cloud. This certificate can be completed in about 6 months and is designed to prepare you for a variety of roles in IT, like more advanced IT Support Specialist or Junior Systems Administrator positions. Upon completion, you can share your information with potential employers, like Deloitte, Target, Verizon, and of course, Google.</p>
